7-Henro gets an isolated TTT rating despite not having won since December of 2024. He closed well on 13 February, and appears not to have any early running ability. Calculating early pace of others is always a challenge, but I surmise that my computer feels that the pace will allow him to be able to close and win. Hope for a price and watch that board. Slow **7-Henro** is the *“Worst Mother-Fuckin’ Bet of the Day.”*

Win, place and show, is all you gotta know.
